Microlon Europe Ltd.

Amesbury, SP4 7SE.

Dear Stuart,

I am writing a letter to confirm that I witnessed the trial on Jon Corners Ducati in 4<sup>th</sup> June 2008. The motorbike was treated with Microlon engine treatment and also Microlon FTX Fork treatment.

Prior to the test the bike was Dyno tested by Tim Blakemore of Tim Blakemore Racing in Bristol UK. One hour after the Microlon was added to the engine and the installation guide was followed to the letter.

I observed a 6% improvement in BHP, a 5% improvement in Torque from the Dyno test. Jon Corner has recorded strong improvements in fuel economy and improved safety and handling characteristics from the FTX Fork treatment.
